

Saronic islands

1

ANCHOR

On our way to the Saronic we will anchor in the beautiful bay of Vidi, where the sea is so calm it sometimes reflects the stars. In the morning we will wake up next to a sunken ship that we can explore before setting sail to our next destination.

ERMIONI

Shortly after noon, we will arrive in this fishing village that still preserves its magic. A few meters from the port, there is a small forest that overlooks the sea. It is a very pleasant space to take a walk, swim after eating or even do a group activity. It is also worth visiting the upper area of the island, where the old part of the city is located.

3

SPETSES

One of the most beautiful islands in the Saronic, where many Greeks make their holidays. During the day we will get to know its streets, beaches and corners, to finish eating at a restaurant with tables on the sand. We will also have enough time to visit shops and explore the nightlife for whoever feels like it.

DOKÓS

The next morning we will sail around the island of Spetses and stop for lunch anchored in bay that hides a cove with a beach inside.

We will spend the night at anchored in a small bay where you will wake up to the most spectacular sunrise you could ever imagine.

4

5

HYDRA

We will sail to the island of Hydra, one of the most beautiful islands in Greece. Leonard Cohen lived here! Hydra is the most charming island of the Saronic Gulf, its steep white stone streets are scenery to all postcards. There are no motor vehicles, donkeys are the only means of transportation on the island. Watching the sunset on one of its terraces is a magical moment.

POROS

The next morning we will set off to continue our journey. We will have breakfast, sunbathe on deck and stop on our way for a little swim before arriving to Poros.

Once docked, we can explore the island by scooter, visit the different beaches (such as Russian Bay) or even go up to see the ruins of the Temple of Poseidon.
